ADDITIONAL INFORMATION

My name is Antonio Tylere Lewis Jackson. I'm 21 years old and currently taking HVAC courses at RCCC. I was born and raised in Concord and have plenty of family in Charlotte. I had no idea what to do with my life outside of football until I sat down and spoke with my uncle about my future. He is an Electrical Contractor with 38 years of experience. He introduced me to HVAC and what is about, he also believed that this line of work would fit me best because I'm a go-getter like my father who is no longer here. I started taking classes about 5-6 months ago and I enjoy learning about the Heat/Air units, how they work, and being able to problem solve. It makes me feel important and also makes me feel good about myself. To be able to say soon, that I have gained knowledge of something really important, and useful in this world.
